Meeting your needs

- Earn revenue by charging callers on a *Per Minute or Flat Rate* basis for phone calls.
- Automate the billing process completely.
- Efficiently and reliably distribute calls to your operators at any location.
- Eliminate the need for additional telecom equipment.
- Flexibility to easily expand as call volume increases.
- Prompt hassle-free monthly revenue payments.
Our Solution

800 Bill to Credit Card ®

Automatically bill your callers to their credit or debit card.

- Real-time billing - Credit Card / Debit Card authorization system (VISA, MasterCard, American Express, Discover)
- Forwarding of live calls to your operators.
- Web based software automates and tracks entire process.
- Handle 99 simultaneous calls with the ability to expand as needs arise.
- Per Minute billing, Flat Rate billing, or a combination of these options.
- Set the business / line hours of operation.
- Direct deposit revenue into your account each month.
How it Works

- PayPerCall.com will set you up with a dedicated pay per call telephone line.

- When a customer calls they will hear your custom greeting which tells them who you are, what you are offering, and the cost of the call.

- Callers will then be prompted to enter their credit or debit card information. The funds are verified, preauthorization is obtained when your operator is available, then the call is connected.

- At the completion of the call, we will calculate the total minutes, and finalize the transaction.

- Login and check your earnings in real-time.

- Our solution is 100% turnkey. The programming, hosting, billing, and software are all taken care of by us.

It’s that easy!
